

## Eurosynapses is a Consulting and Recruitment Company offering direct link to:

- Clinical and Academic professional development for Health Care Scientists
- Postgraduate, Continual Medical and Professional Education & Sabbaticals

### Eurosynapses is the FIRST company in Europe combining study and professional career planning

EuroSynapses provides a holistic set of support and services to Medical Staff & Allied Health Professionals, through the whole path of their application. From exploring the perspectives of making a career abroad until the final Hospital placement.

Through our partner Universities and Research Centers, we can offer to our candidate's career break taking a sabbatical on short term or annual basis in highly accredited centers worldwide. The impact of these activities, reinforce their academic and practical knowledge and enable to reflect on their current practice and patient treatment care.

EuroSynapses offers to its candidates, postgraduate courses (MA, MSc, MPhil, MBA or PhD) and training through our partner Universities and Research Centers worldwide.

**Our commitment is to help motivated people to make the best choice based on their capacity and the existing perspectives. We will help them to maximize their potential by fostering the world-wide mobility**
