Trainee Course

**Summer School**

June 11-14, 2015  
Hotel International, Prague, Czech Republic

This intense, clinically-oriented course is an educational concept for gastroenterology trainees across Europe, which combines state-of-the-art lectures with practical skills training.

Each morning, cases will be presented for discussion, with related lectures. The afternoon will be dedicated to practical training in small groups, while faculty and delegates will have opportunities to meet, socialise and share ideas in the evenings.

Application is open until February 8, 2015

Basic Science Course

**IBD: models & methods**

July 9-11, 2015  
Amsterdam & Rotterdam, The Netherlands

This course is an educational activity for young basic science oriented physicians and biomedical researchers in the field of gastroenterological cancer research across Europe. It combines state-of-the-art lectures with hands-on training in the laboratory, which will take place in Amsterdam and Rotterdam. A distinguished faculty of experts in gastroenterology, mucosal immunology and inflammatory bowel disease will teach you about models and methodology that can be used to investigate inflammatory bowel disease and close faculty-attendee interaction will be emphasised.

Application is open until March 8, 2015
