Official Distributor

Dear Colleagues,

The Hellenic Society of Gastroenterology (HSG) and the Hellenic Society of Gastrointestinal Oncology (HSGO) are organizing, as part of their educational activities, a two days training course in advanced endoscopy involving two groups of participants.

This educational activity follows in total 8 courses, organized by the scientific bodies mentioned above and will be granted with CME points.

During the course, participants will have the opportunity to be trained in a number of current advanced endoscopic techniques with practical implementation in animal models (swines) as well as with the use of simulation methods.

All endoscopic techniques will be performed under the direct supervision of well-known trainers, such as Professor H. Kashida from Japan and other distinguished invited instructors. The theoretical part of the endoscopic procedures will precede the practical Training in endoscopic submucosal dissection (ESD), endoscopic ultrasound (EUS), submucosal tunneling endoscopic resection (STER).

This course is primarily addressed to gastroenterologists-endoscopists who wish to broaden their knowledge in endoscopy.

We are delighted to welcome you to participate in this exciting educational activity aiming to set new directions in the continuous education of gastroenterologists from all over the globe.

It is our pleasure to thank our Major Sponsor Olympus & Proton Hellas for their valuable assistance to organize this course.

We would also like to thank the University Hospital of Athens "Attiko" for the facilities provided for this venue.

Yours Sincerely,

Periklis Tassios, MD, PhD

President of the Hellenic Society of Gastroenterology (HSG)

Spyridon Michopoulos, MD, PhD

Endoscopy School of the HSG

Thomas Thomaidis, MD, PhD

Secretary General, Hellenic Society of Gastrointestinal Oncology (HSGO)

Apostolos E. Papalois, PhD

Vice President of HSGO

Secretary General NASCE/UEMS Executive Board

**INTERNATIONAL COURSE ENDOSCOPIC SUBMUCOSAL DISSECTION (ESD)**

**8 & 9 December 2023**

<b>8 December 2023</b>				
<b>(morning session 09.00-13.00)</b>				
	<b>Station 1 (4 trainees) ESD Animal Model</b>	<b>Station 2 (4 trainees) EUS Dummy Model Use</b>	<b>Station 3 (4 trainees) ESD Animal Model Use</b>	<b>Station 4 (4 trainees) Tunneling Animal Model Use</b>
	Michał F. Kamiński Warsaw, Poland	Scotiniotis E.	Kashida H. Japan	Bassioukas S.
